PROFILE

I help brands look credible, consistent and ready to sell. Over **9 years** I have designed for clients and teams in the UK, Australia, Singapore, Hong Kong, Malaysia, Vietnam, Japan and the US, covering **branding, advertising, eCommerce, packaging and campaign creative**. Most recently I have been working as a freelance brand and senior graphic designer for international clients, after leading creative production and visual direction at a California motorsport growth agency.

I take a project from brief and concept to final delivery, keep every asset on-brand, and communicate clearly with remote teams. I also produce video and use AI tools to speed up concepting without losing design quality.
